Number of ct on 1pal.	6720	

Other characteristic

Uses:

containers with lids are intended for direct contact with watery, acidic, fat food products, which temperature is room and lower.

Hot filling:

packaging is suitable for contact with the hot filling (85°C-95°C) and short-term use in the microwave. Packaging must be tested by the customer with the actual product before to written approval for use at hot temperatures.

Cold temperatures:

packaging made from the special cold-resistant material can be used at temperatures -20°C. It is produced according to customer requirements. Packaging must be tested by the customer with the actual product before to written approval for use at low temperatures.

Storage:

suitable storage includes protection of direct sun light, rain, very high temperatures over a long period. Packaging must be not more than 2,4m in height and at least 1m away from heat source.

Recommended period of storage – 12 months after delivery to suitable storage.
